

ICON OFFSHORE BERHAD CLIMATE CHANGE STATEMENT

1.0 Statement

Icon Offshore Berhad (“ICON”) recognizes the threat posed by climate change to its business, public health, communities in which ICON operates. As a leading solutions provider for the global energy industry underpinned by sustainability, ICON is taking steps to reduce its environmental footprint, supports the low carbon emission and aspires to be part of solution solving in relation to global climate issue.

2.0 Climate Change Approach

ICON adapts the business to a changing climate, increase resilience and transition to a low carbon economy by reducing greenhouse gas (GHG) emissions through energy efficiency, improved production technology and low carbon processes. ICON’s strategic approach focuses on reducing GHG emissions from Scope 1 and Scope 2 from its operations and deploys emission reduction measures where reasonably practical. ICON is also a member to the Climate Governance Malaysia where they address climate change as a business risk.

3.0 Target

ICON’s target is to be fully consistent with the ambitious goals of the Paris Agreement and to disclose its current GHG emission in line with Task Force Climate Financial Related Disclosure.

4.0 Assurance

ICON is committed to ensure the accuracy and integrity of information disclosed and to improve the quality of its decision-making process in its operation in relation to climate change impact.
